Enabling the Business

Harnessing Power in the Company

SurgeArrest

World's most reliable Power Protection

- ◆ lightning storms can destroy computers, CD ROM drives, modems, TVs, sound systems, VCRs in a flash.
- ◆ 5 safety shutter outlets.

SurgeProtection

Protection for Mobile Notebook with advanced AC and telephone line protection

- ◆ Compatible with most notebooks.
- ◆ Works anywhere anytime.

Back-UPS

Best value power protection for PC workstations

- ◆ Battery Backup and surge protection.
- ◆ Multipath protection for PC, monitor, and other peripheral

Customised & Managed Network Power Solutions

- ◆ APC has designed Power Management Software & Accessories to increase network uptime and to enhance and customise solutions.
- ◆ Unattended shutdown & power management.
- ◆ *PowerChute* plus UPS power management and diagnostic software.
- ◆ Proactive UPS management.

Back-UPS

- ◆ Smart battery back-up with high performance surge suppression for Win95,98 & NT pcs.
- ◆ Multipath protection for PC, monitors, Zip drives, scanners, fax machines, etc.,
- ◆ Multiple workstation protection.

Smart-UPS

- ◆ Power Management and diagnostics for advanced networks.
- ◆ Includes *PowerChute* software for safe shutdown and extensive UPS management.
- ◆ Fileservers, minicomputers, internetworking equipment, telecommunications systems & other mission-critical applications.

PowerStack

Protects stackable data communications hubs, switches, and small routers from AC power disturbances

Symmetra Power

- ◆ Scalable, redundant power protection for multiple servers and business-critical applications.
- ◆ Manageability -through Powerchute plus & PowerNet SNMP software & most APC UPS accessories.
- ◆ Serviceability -lower cost of ownership.
- ◆ Modules can be shifted from one power array to another.
- ◆ All Power Array adjustments can be made while system running and protected.

Silcon

- ◆ UPS system for datacenters, company-wide networks and industrial applications.
- ◆ Redundancy ensures max uptime.
- ◆ upto 9 can be paralleled to serve special demands.
- ◆ Saves money & protects the environment - low heat loss.
- ◆ Integrates seamlessly with generators.
- ◆ Software provides management & shutdown facilities for most operating systems

NetShelter

Flexible enclosure for easy installation of multivendor, rack-mount equipment

ShareUPS

UPS management & unattended shutdown for up to 8 servers (OS-Independent) connected to 1 UPS

MasterSwitch

Network power control unit

- ◆ SNMP control
- ◆ LAN connectivity
- ◆ Web Control

Matrix-UPS

Advanced Modular power protection for Datacentres

- ◆ hot-swappable
- ◆ isolated unit
- ◆ expandable
- ◆ manageable
- ◆ downsizeable
